We extend to you a
Cordial invitation to attend the

Annual Sale of Shorthorns

at

Klaymor Farms, Unionville

Klaymor Outlay. Second top selling bull of the 1951 sale. Purchased by MacDonald Bros., Ripley, Ontario. A full sister sold last year to M-H Farms, Milliken, Ontario. A full brother, Klaymor Rajah, sells as Lot 2.

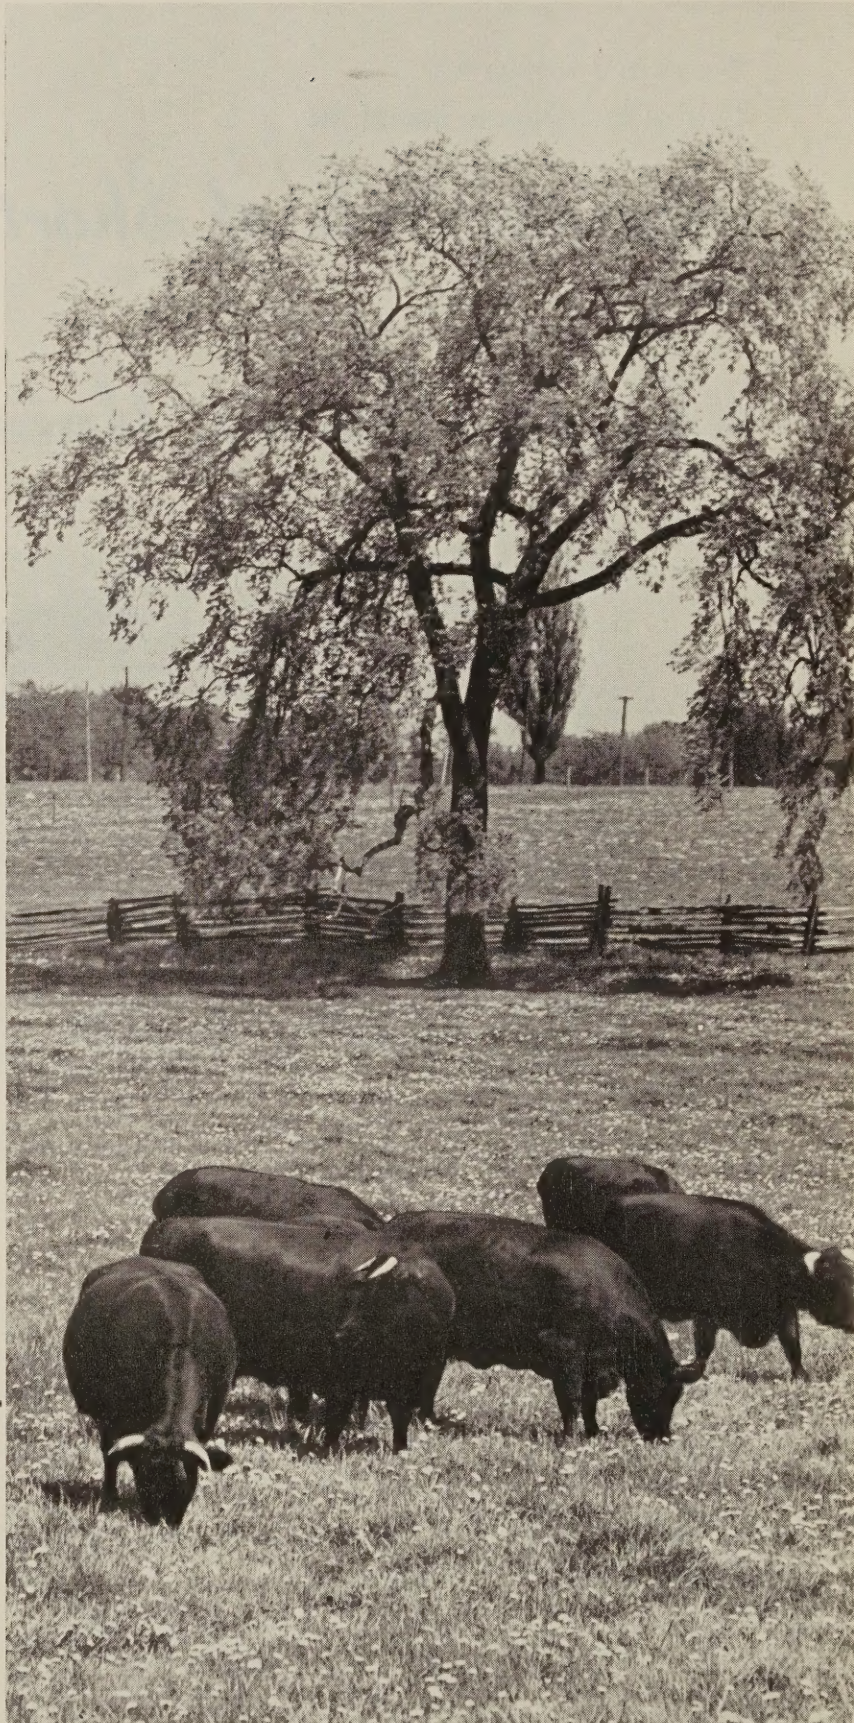

We are looking forward to your visit to Klaymor Farms on the occasion of our sixteenth annual sale. Plan to arrive on Sunday, the day before the sale, so you can leisurely see the cattle and the herds. As always, we will be happy to cooperate with the other breeders in the October Ontario circuit to help you see their herds and to combine shipments most economically for you. In this connection we call your attention to the Brae Lodge Dispersion, Inglewood, Ontario, Saturday, October 3, and the sale at Glenburn, which adjoins Klaymor, on Tuesday, October 6.

Transportation will be furnished from the Royal York Hotel, Toronto, on Sunday, Monday, and Tuesday.

Regarding American Purchases . . .

We have been holding sales for sixteen years. A glance at the list of buyers from these sales (elsewhere in the catalog) is the best testimonial of our willingness to do everything possible to help the buyer ship his cattle home economically, by holding or pooling his shipment with others going in the same direction.

Regarding Maritimes and Western Purchases—

We will gladly hold these cattle until pool shipments can probably be made at the time of our Royal Winter Fair.

Please note the series of Ontario sales:—

Saturday, October 3. The Brae Lodge Dispersion. Mrs. W. J. Gartley, Inglewood, Ontario.

Monday, October 5. The Russell-Law Sale, Klaymor Farm, Unionville, Ontario.

Tuesday, October 6. The Beath-Deacon-Murphy Sale, Glenburn Farm, Unionville, Ontario.

Females That Money Cannot Now Buy in Scotland

We applaud the efforts of Shorthorn breeders who will not let time or distance stand in the way of improving their herds. The success such herds as Edellyn and Klaymor made with the infusion of females imported from Scotland has in a great part been responsible for prompting others to do the same. What must be remembered is that these cows that did so well for the two herds mentioned above were imported largely in the thirties . . . and times were tough then in Scotland as everywhere else.

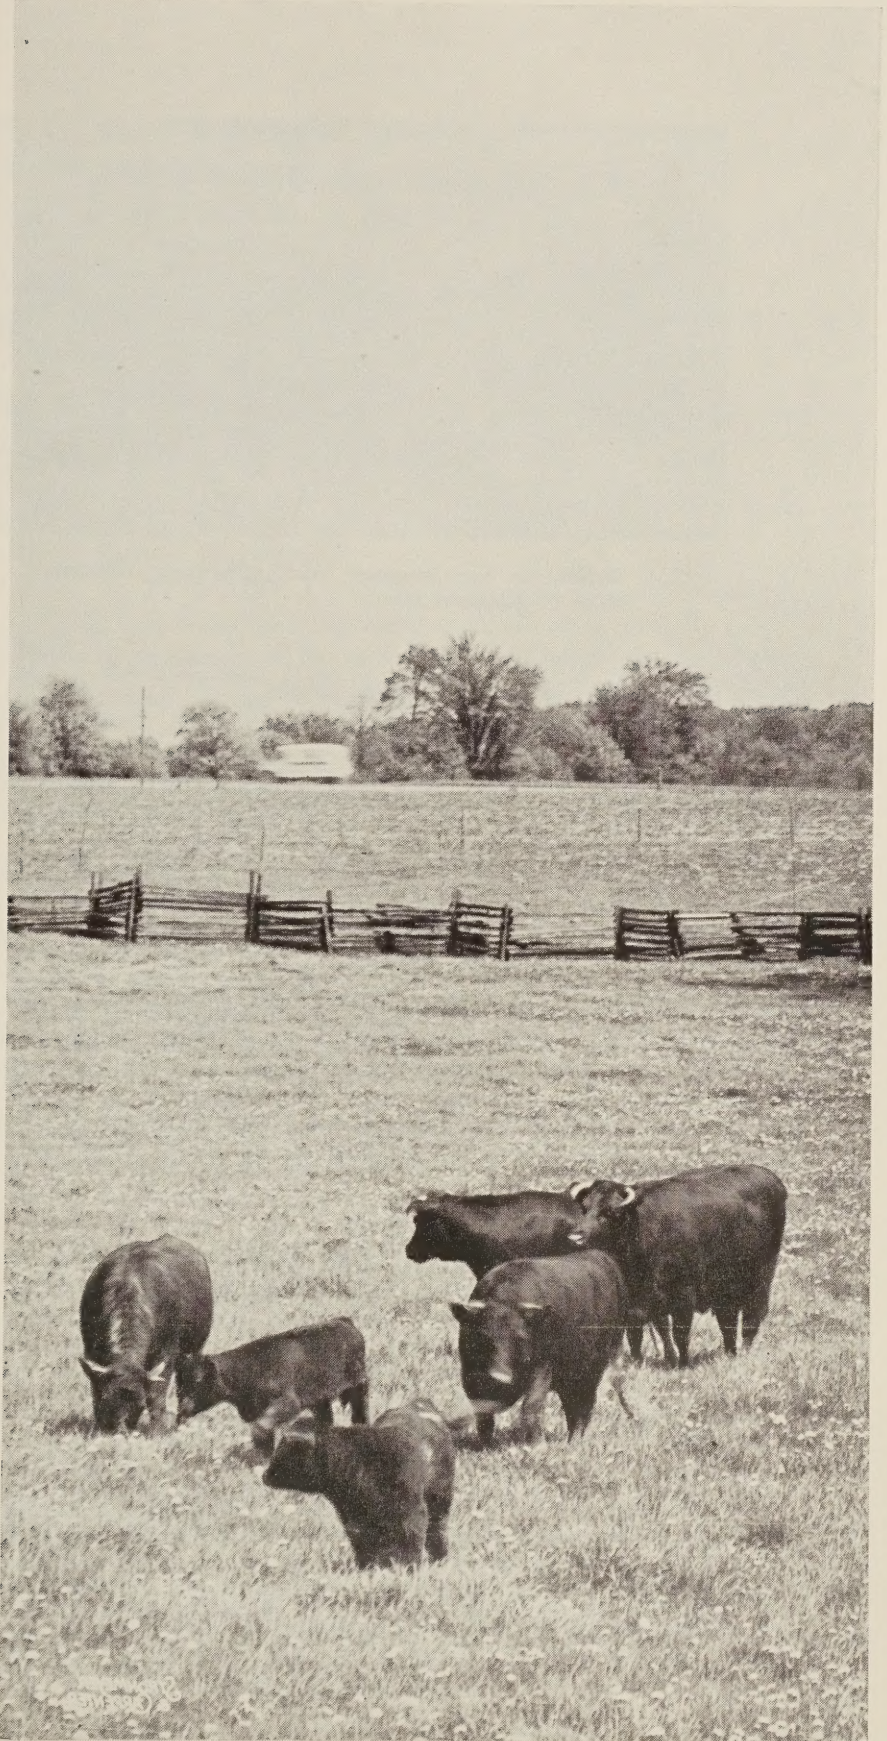

Klaymor was able to take its pick of the herds in Scotland. Their best heifers were available. The kind of females that we bought are not now available in Scotland at any price.

The Klaymor herd today is the result not only of these importations, but of their constructive mating. Among every group of females certain ones prove to be the most outstanding breeders. Over a twenty year period, to make their influence dominant, each year we have selected a few heifers from these particularly top producing families to retain. The best herd bull we could find has been brought into this herd at approximately five year intervals. To assist and to avoid continual outcrossing the top sons out of the best producing females have been used.

We have never been interested in mass production of seed stock. The size of the Klaymor herd today is about the same as it was when it was founded in the thirties. With such a program our own replacement needs do not take from our heifer crop more than a few. Thus, we are able to offer females of rare quality, breeding and uniformity.

No females are ever sold from Klaymor at private treaty. No one is allowed to come in and pick over the bulls before the sale.

The cattle that you buy in this sale are bred to breed on . . . and that is what you buy them for.

A few of the females
from the original
importation.

**Heifers in the Ringwell herd, Ringwood, Illinois,
sired by Klaymor Heir.**

At a recent Russell-Law sale the selling force was called into a huddle to help make the bull selling order. Because of the unusual uniformity everyone was lost on which order to bring them in.

The results of the sale further bore out the uniform excellence. With a top of \$2500, the twelve bulls averaged over \$1800 with eight of the twelve selling between \$2000 and \$2500.

These were nearly all sons and grandsons of Calrossie Formula, and it is interesting for me to note how large a percentage of the bulls sell-

ing this year are full brothers to that group.

What every breeder wants when he buys a bull or a female, is the greatest possible assurance that this animal will reproduce in kind. Because of the uniform excellence, you can buy with confidence that these will be outstanding producers.

I assume that what you are looking for is something superior in quality. Numerically speaking, this is not a large offering. However, if you attended a sale where ten times as many were offered, I do not believe you would find as many cattle that you would want to own.

Don Longley SALE MANAGER

There Are No Footnotes in This Catalog . . .

With two exceptions all of the cattle in this sale were either bred by W. J. Russell or P. F. Law or sired by their herd bulls. Therefore, there is no explanation by way of footnote the origin of every animal. The cows in these two herds are good producers or they wouldn't be there. You will be able to see this with your own eyes when you come to the sale. A list of breeding dates for the heifers will be announced on sale day.

The pedigrees in this book are the new two generation form now standard in Canada. It is true that this places emphasis upon the six most influential animals in an individual's inheritance. However, you should realize that every animal in this sale has the richest possible background.

Above is an extended pedigree showing the typical inheritance of the animals in this sale. This particular heifer was sold in the 1949 sale to S. J. Stokes and Son, Lexington, Kentucky.

Study this pedigree. It tells a great deal about the planned mating program at Klaymor. Note how the blood of the great Klaymor cows Calrossie Fairy Princess, Calrossie Augusta Queen, Calrossie Joan Ramsden, was intermingled and locked in through Klaymor's program, and how it produced individuals of quality and breeding merit that even surpassed their sires and dams. They are bred to breed on.

ELBRLAW Is

The main barn at Elbrawl, owned by P. F. Law. The farm is located on highway 27, a 20 minute drive from downtown Toronto.

The cattle pictured are all daughters of Klaymor Freebooter, former herd sire at Elbrawl. Most of these are members of the Elbrawl herd today. The present senior herd sire is Aldie Good News. He is a son of Calrossie Good News. Since Calrossie Good News is a maternal brother to Calrossie Formula, senior herd bull at Klaymor, the breeding of these two herds is allied. The first calves will be sold in this sale.

One of the most popular bulls on the Canadian show circuit was Elbrawl's 1950 C.N.E. grand champion, Louada Ad-

Elbrawl Alice Broadhooks, junior and reserve grand champion female at the 1947 Canadian National.

miral. This bull was developed by mating Klaymor Freebooter to Louada's Aberfeldy Butterfly, who herself was four times a C.N.E. champion. Louada Admiral was used both in the Elbrlaw herd and the small, select herd of Dr. William Pinkney. The understanding was that Elbrlaw was to be able to select from the Pinkney heifer crop.

Also making their first appearance are the first calves by the Elbrlaw junior herd sire, Kair Ensign, a son of Beaufort Bolido.

We call your particular attention to another bull being retained at Elbrlaw. This is Elbrlaw Dazzling Prince, a son of Louada Admiral, out of Elbrlaw's 1950 International grand champion female, Tolquhon Dazzling Princess. Several of the Elbrlaw sale heifers carry his service. A list of all breeding dates will be supplied on sale day.

Elbrlaw Augusta 5th. Champion of the 1949 National Shorthorn Sale. Purchased by Hi-Ho Farms for \$3350. Lot 17, Elbrlaw Good News, is out of the same cow.

Elbrlaw Martha

Elbrlaw Miss Leader. Grand Champion of the 1948 Canadian National Exhibition.
